Hello Allwin,

Welcome to your Personality Profile, please check the birth details of your horoscope are correct. This report sets out to give you an assessment of your personality and character development by interpreting the different parts of your birth chart.

Your birth chart represents a map of the solar system for the exact time and place of your birth, it's a blueprint of your personality and represents a set of potentials, with the contents being added through the experiences of life.

Most people are aware of the Sun's zodiac sign that they were born under, however, it's not only the Sun sign that exerts a powerful influence over the birth chart and character. The Rising Sign, the Moon, the planets, the angles they form to each other, called 'aspects', their zodiac sign and house positions also play an important role.

As you read through this analysis, you will occasionally notice that contradictory information may be given. This is to be expected, as each individual's character is extremely complex. For example, at times we can be aggressive and confident, and at other times withdrawn and moody. And if planetary patterns seem to be repeated time and time again, that's because the analysis is focusing on a particular and very important strength or weakness within your character.

The birth chart is comprised of three basic factors.

- 1.** The Planetary Aspects (angles) formed between the Sun, Moon and planets, as seen from the Earth, are represented by the coloured lines in the centre of your chart and the intensity is indicated by the number of stars each aspect is given in the report.
- 2.** Each planet is located in a particular Sign of the Zodiac. The symbols for each Zodiac Sign are placed around the edge of the birth chart, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces.
- 3.** Each planet is also located in a particular House, labelled 1 to 12 in the birth chart.

How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. Your birth chart, is indeed unique, although many people may have, for instance Mars in Scorpio, or Venus in Capricorn, and hence have certain traits in common, the number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more important the connection. The keys for the planets and the other symbols and terms used are given at the back of the report.

Personality Profile Interpretation

Your birth chart shows the exact positions of the planets at your time of birth. It also tells you the sign of the Zodiac that was rising at your time of birth, known as your 'ascendant'. How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. The interpretation begins with your overall character and temperament.

Allwin's character

Allwin's thoughtfulness

You are inquiring and intellectually alive. Ideas come to you easily and, just as easily, you communicate them to the nearest audience. Freedom of movement, both physical and mental, is of paramount importance if you are to conduct your life with any degree of creativity. In fact, you react strongly towards a sense of confinement, air is for breathing, not stifling. Your emphasised intellectual approach should, however, be qualified by remembering that the mind is no substitute for, and can never fully comprehend, emotional experience. In the order of things, emotional experience occurs first and should be given appropriate and respectful consideration.

Allwin's emotions

You have an emotional disposition, which relates and responds to people and situations intuitively. Strongly sympathetic, even compassionate, you are often attracted to those less fortunate, hoping to ease their problems by taking on a part of them yourself. This can create confusion and turbulence in your own life and because emotions are often hard to control, you can also become moody and unpredictable. As a protective reaction to all this, you can then become withdrawn and defensive.

Allwin's dependability

You might not always find it easy to establish stability in your life, especially on a material level. Therefore, finances, home, and other essential practicalities may need extra effort on your part. You need to develop a structure which allows you to be organised and methodical.

Allwin's energy level

Your enthusiasm and inspiration often need a boost, as well as your ability to devise projects which can excite your passions in the first place. Don't let yourself be a victim of complacency, become active and involved. Energy begets energy.

Allwin's temperament

Allwin is fair and even handed

Your powers of initiative, conviction, and perception combine well to help you cope with and understand the ever-changing demands of life's experiences.

AS

The Ascendant or Rising Sign

Represents the area of life concerned with your sense of self-identity, the impression you give and how others see you.

AS in

Self identity

Possessing an easy-going charm, you enjoy being surrounded by friends and co-operating with others. You go out of your way to avoid conflicts and you usually get what you want from life as others realise that you're willing to give as much as you receive. Possessing an innate sense of beauty, style and grace, money will be spent freely.

AS   ★☆☆☆☆

Creative drive

You'll have powerful creative talents, and at times even feel that you could succeed in almost anything you try to do. While this is probably true, there's also a tendency to keep putting things off until tomorrow! Nevertheless, you'll more than likely become a professional in whatever career you choose. The pressure of competition and the demands of proving your worth in your chosen field will provide the drive to realise your full potential.

AS   ★☆☆☆☆

Diplomacy

Generally you're diplomatic and fair in your dealings with others. You're willing to consider both sides in any argument, and able to see the relative merits of both points of view. This sympathetic approach encourages others to trust in your understanding of their problems, and in your judgement of the possible causes and solutions.

AS   ★★☆☆☆

Over-eager

In your eagerness to assert yourself you occasionally show little tolerance for other people's weakness and a lack of understanding for their feelings. At these times you'll say or do things without giving any thought to the effects your words and actions may have and as a result you may occasionally rub people up the wrong way or create bad feelings unnecessarily.

There is a strong need to be assertive in your relationships, and to establish yourself as the dominant partner. You expect your partner to do things your way, but you're intolerant of any attempts to dominate you, or restrict your actions in any way. Frustrations and dissatisfaction in your work or professional life will often be taken out on those closest to you, in your home.

AS   ★★☆☆☆

Confidence

You possess an inner strength that will see you through many life crises. Much of what you think and feel is hidden beneath a seemingly implacable surface. You need to feel complete trust for someone before you reveal your true self to them.

At some point in your life, events will force you to re-evaluate yourself, your goals and what you want out of life. This process will eventually force you to grow into a stronger more confident individual.

The Sun

Your essential self, the centre of your being. It indicates what you are striving to become as an individual.

Vitality

You are generally forward-looking, original and optimistic.

You are unconventional, but probably at times also rather detached and impersonal. You're by nature a rebel. You therefore need to ensure that your rebellious nature and insistence on holding unconventional views does not become fanaticism and a refusal to change your opinions.

5th house

Your creativity, either expressed through children, or through various art forms. Leisure activities, sports, gambling, love affairs etc. in fact all forms of recreation where you express yourself freely and without inhibition.

☉ in 5th House

Self expression

You need to express yourself through some kind of creative activity. This creativity can be expressed in various ways. Although you may not actually be an artist, some kind of artistic activity will give you a great deal of personal satisfaction. Children can also give you a sense of pleasure and enjoyment in life and help you to gain a deeper sense of who you are. You'll also enjoy all forms of sport or recreation as a means of acting spontaneously and letting go.

☉ ♁ ☾ ★★☆☆☆

Understanding

There is a conflict between what you want out of life, and what you emotionally need. You may occasionally be over-demanding of your partner, expecting more than they're able to give. You may find yourself attached to someone with a radically different background or outlook on life to your own, with resulting problems of communication or mutual understanding.

☉ ♀ ♃ ★★☆☆☆

Ideas

You may occasionally lack objectivity in your thinking, identifying too much with your opinions. Although you like to express your thoughts, your words may not always be backed by the facts, but more of an expression of how you would like things to be. Nevertheless, with more objectivity and tolerance of others' opinions you would have a tremendous skill in communicating ideas and concepts to others in a clear and understandable way.

☉ ♁ ♃ ★☆☆☆☆

Expectations

You will tend to over-optimism and unreasonable expectations. You can also be overly dramatic. You're generous to a fault, but you may also occasionally expect too much in return, leading to either conflict or disappointment when others don't live up to your high expectations.

You enjoy challenges that increase your knowledge, but there's a danger of over extending yourself and feeling a sense of failure when you don't achieve the usually unreasonable goals you've set yourself. However, if you limit your goals to what is possible and realistic then there's no reason why you shouldn't succeed.

Will-power

You are a very strong willed and independent. When younger, you'll probably have been very rebellious, and even now others may regard you as an individualist with little or no regard for rules or authority. In fact at times you may deliberately set out to shock others just to prove that you won't be bound by any rules or restrictions.

You value your personal freedom very highly, and may even deliberately disrupt a stable situation if you feel it has become too restricting or confining. Your interests and goals may change suddenly several times throughout your life.

This represents a challenge to be met, and channelled into positive directions. Always ready to help those in need, you often put your energetic nature to work for others, rather than yourself, and fight for the freedom and the needs of others who can't fight for themselves.

Visionary

You possess an imaginative and idealistic side to your personality. It's easy for you to wander off into other worlds, but you're not just an impractical dreamer as you have definite and realistic ideas as to what you want from life, and what life should be.

You work best if you can set yourself some far off goal, a vision of what you want to achieve, which then draws you on through the necessary steps to the attainment of your goal. You'll never be satisfied with what you have achieved, always haunted by the feeling that there is more that you can do, another vision to be actualised.

In your dealings with others, you know intuitively what is expected of you, and how to react, in any social or professional situation. You can adapt and fit in to almost any situation.

Ambitious

You'll have a strong desire to make something of yourself, and the determination to succeed in whatever task you set yourself. You would like to bring order out of chaos, and to encourage and teach others to achieve their full potential. You will be admired by others for courage and determination in fighting for what you believe to be right. They'll recognise that your arguments are based on a deep insight and a genuine desire to put things right.

You'll also be aware that people's lives are, at times, guided by some higher purpose or power and that even difficult or painful experiences often lead to greater opportunities and personal fulfilment. As a result, you're generally able to weather your own personal crises with the knowledge that it will lead to greater self understanding and bigger and better success.

The Moon

Represents the emotional and compassionate side of your nature and your immediate emotional reaction to life pleasures and problems. It also indicates attitudes instilled in early childhood.

☾ in 69

Habits

You are emotionally very sensitive, perhaps to the extent that you hide your feelings behind the hard shell of the crab in order to prevent your feelings from being hurt. However when they are hurt, the pain lingers for a long time.

You can be rather tenacious and possessive in relationships and may find it difficult to let go when necessary. You may also occasionally have difficulty in outgrowing emotional patterns that are the result of past conditioning and experience, particularly your relationship with your mother. The family instinct may be powerful, possibly to the extent that it can lead to clannishness. You need to be needed, and to be able to express your emotional needs with someone else.

9th house

Your search for knowledge and awareness through travel and higher education. The law, religion and the use of your higher or more intuitive mental faculties.

☾ in 9th House

Attitudes, emotions and specific needs

Philosophy, religion, travel and higher education are of interest and you may find emotional security from some belief system. This may be inherited from your family background, but you have the ability to adapt your philosophy to changing influences and conditions.

Travel may be linked with your emotional life, and you may live abroad for a time. There's also an attraction to women of a foreign culture, or who can expand or broaden your horizons in some way.

☾ △ ♂ ★★☆☆☆

Emotional understanding

You're generally tolerant of other people's short-comings. You're also able to keep going even through periods of emotional upheaval as your relentless energy should provide an emotional strength and a determination to see things through.

This same quality enables you to give emotional support to friends when they're going through difficult times, and you may find yourself being sought out for the understanding and strength that you have developed as a result of dealing with your own difficulties in the past.

☾ □ ♃ ★★★★★

Emotional balance

Your emotions can occasionally be rather fiery and unstable. There seems to be a conflict between your need for emotional support and sharing, and a need for independence. The end result being that you often swing between feelings of dependence and independence, enthusiasm and depression. At times you may also have some difficulty in balancing your personal responsibilities with your professional ambitions, causing conflict within yourself and with those closest to you.

Your sympathy and understanding makes you generous towards others, but you may also occasionally be overly extravagant, spending money that you don't have, or buying on credit in anticipation of what's to come. In order to avoid getting into difficulties, you need to apply strict financial controls to yourself or at the very least, try to follow a sensible budget.

☾ □ ♃ ★★★★★

Emotional expression

You may occasionally have a tendency to place duty and responsibility before your emotional needs. It may be that in your childhood not enough attention was given to your emotional needs, leaving you feeling that they are unimportant, or that they should be sacrificed to more practical concerns.

Perhaps you experienced your parents as being very judgmental or detached, or perhaps one or both of them was not there at all. As you grow older you'll learn to make your own judgements on yourself, and not take the opinions of others too much to heart. It's therefore important that you find some way of expressing yourself emotionally, and learn to listen to your heart as well as your head.

♿

Mercury

Represents your communication skills and how you think and receive information from others.

♿ in ♃

Mentality

Your mind and thoughts are often influenced by your emotions. This placing also indicates a sensitive and impressionable mind with a strong imagination and intuition, with possible psychic tendencies. However, at times, there can be difficulty in being objective about yourself and your feelings, as your judgement may be clouded by your changing emotional states. What you believe to be intuition may be no more than the expression of your own feelings or fears. Therefore, objectivity needs to be developed, and intuition checked by reason.

♿ in 5th House

Communication skills

There is a need for artistic expression. Poetry, music, writing or acting could become the means through which you can find direction and purpose in your life.

In your love life you'll be attracted to people you find intellectually stimulating partners you're both physically attracted to and with whom you can have long and deep conversations about many issues.

You'll also be keen to encourage your own children's intellectual abilities. You'll generally find that you have a good level of communication with them, particularly as they grow older and are able to express their own thoughts coherently.

♿ ♀ ♂ ★★☆☆☆

Confident

When necessary, you're able to express yourself with forcefulness and confidence. However, beware the tendency to talk others down. You'll also need to recognise that other people are entitled to their own opinions, even if you disagree totally, otherwise you may gain a reputation as being rather arrogant.

Having said this, you have a great deal of mental energy which you're able to apply tirelessly toward achieving your goals, all you need to remember is that others may not be able to keep up with your rather gruelling pace. Your mind is restlessly eager to gain new information, you are never satisfied with what you know.

♀ □ ♃ ★★★★★

Relax

Both your nervous system and intellect benefits from a high level of nervous tension. Your mind is stimulated by visions of the future and is open to new ideas and new ways of thinking.

You generally don't allow yourself to get into an intellectual rut. You may occasionally find it difficult, however, to control your mind and find a state of inner peace as your thoughts are always racing ahead of you. At times you may be on a "short fuse", reacting too quickly to other people's opinions before you have fully considered what they have said.

You can learn quickly, your intuition is strong and you have many original and inventive ideas, but to make the most of your powerful mental energies, you'll need to learn to slow down and relax occasionally.

♀ △ ♃ ★☆☆☆☆

Analyst

You have an analytical mind that is able to penetrate beyond surface appearances. You're therefore suited to any form of research or investigation since you're always wanting to get to the truth of any matter.

You need to find some kind of meaning to life and your experiences and then to communicate the understanding and knowledge gained from your experiences to others. But do beware being too opinionated as at times you'll identify too strongly with what you believe in, and will defend your viewpoint without compromise.

♀

Venus

Represents how you express your emotions within love, marriage and other personal relationships. It also indicates your attitude towards money, possessions and your aesthetic values.

♀ in ♃

Capacity for love

You have an unconventional approach to relationships. Jealousy and possessiveness horrify you and you'll probably insist on a great deal of personal freedom in any relationship. This can cause problems if you have a partner who needs more of a one to one relationship.

4th house

Family and cultural conditioning, your a sense of belonging, deep inner feelings and habit patterns. Experience of your parents, your own home, and conditions surrounding you during the second half of life.

♀ in 4th House

Love and what you value most

Home and roots, both material and psychological. There is a strong need for harmony and peace in your home surroundings. You'll actually find it difficult to live in an atmosphere of tension and strife, and will generally do anything to smooth over problems, even to the point of avoiding conflicts or problems that need to be discussed. There may be a tendency to lean too heavily on those in your home environment, whether on your partner or immediate family.

♀ △ ♃ ★★☆☆☆

Charming

You have an easy-going charm that will win you many friends. You're always ready with a sympathetic ear and an understanding of other people's problems, but you don't readily burden others with your own problems, preferring to keep your own conflicts and tensions hidden from the world.

You have a strong appreciation of art, and will enjoy being with friends and family. You'll need a wide circle of friends, but in more serious relationships you may have difficulty in confining your affections to one person for too long.

♀ △ ♃ ★★☆☆☆

Self expression

Your approach to relationships may be somewhat conservative. You don't like to reveal yourself openly to others until you've had plenty of time to get to know them and evaluate their character. Like wise, you'll not make the first approach unless you're reasonably certain that you won't be rejected. That's because although you may put on a convincing front to the contrary, any form of rejection hurts deeply.

♂

Mars

Represents your sex drive, stamina and how aggressively you assert yourself and express your desires.

♂ in ♃

Driving force

You are easily influenced by your constantly shifting emotions. There will be times when you may have some difficulty in deciding what you really want and therefore it may take some time to reach specific goals. Nevertheless, you're not the type to trample on the feelings of others in your urge to get ahead in life. In fact your over-sensitivity to other people's feelings may lead to hesitation and doubt when decisive action would be required.

It is your ideals, which motivate you and, when fired, you can work hard in some activity that goes beyond mere practical and financial considerations. However, if you allow yourself to succumb to self-doubt then your motivation, could be all too easily washed away, by the shifting undercurrents of your emotions.

♂ in 5th House

Stamina and assertiveness

You'll always have a strong need to escape life's dull routines and will seize any chance to let your hair down and have a good time. If this need is blocked you'll lose your temper.

You have a strong independent streak in your approach to love relationships, and this may cause some conflict.

As a parent, you will also need a degree of independence from your children, and they'll have to learn very early to stand on their own two feet. This again may cause some stress in your relationships with your children.

♂ ☐ ♃ ★☆☆☆☆

Independence

You possess a need for freedom and independence to the point where it could cause conflicts with others. You possess a high degree of physical and emotional tension that can lead to irritability and impatience and a dislike of any restrictions being placed on your personal freedom.

In spite of this, you're aware of your responsibilities but at times the conflict between fulfilling your responsibilities and doing your own thing can cause a feeling of frustration and anger that you may end up taking out on those closest to you. Nevertheless, if you can come to terms with these conflicts, you have incredible determination and the energy to accomplish more than most.

♃

Jupiter

Represents expansion, your sense of fun, optimism and generosity. It also gives information concerning your religious and philosophical beliefs.

♃ in ♌

Optimism and understanding

Opportunities will come to you as a result of ability to network, constantly creating new business and personal contacts.

Your judgement is generally fair and impartial, and you have a strong desire to help those in need, or to do something to help make the world a better place. This desire may remain just that, however, since your diplomatic nature and your ability to see all sides of any issue may paralyse the urge to action.

The same qualities, if you can overcome your indecisiveness, can bring you great success in any field that involves working with, or negotiating on behalf of, the general public. In relationships, you will seek those that in some way broaden your perspective and experience.

12th house

Surrendering to forces that are beyond your control, a higher power or ideal. Greater self realisation and spiritual goals. Large institutions such as hospitals and prisons, where many people end up if the self-surrender described above is overdone, or made to the wrong ideals.

♃ in 12th House

Optimism and understanding

No matter how dire your circumstances may become, you have a deep-seated faith that life itself will provide for your needs, and indeed you'll more than often be saved in the nick of time from impossibly difficult circumstances by what appears to others to be good luck, but in fact it's luck which you've created from your own thoughts and actions.

♃ ♀ ♃ ★★★★★

Motivation

Tremendous possibilities can be achieved through hard work.

You have the opportunity to balance optimism with realism, enthusiasm with caution and extravagance with discipline. You aim to make an impact on the world, but you're also able to plan the next step before you take it.

Saturn

Represents your sense of responsibility and limitations. It shows how you react to setbacks and the areas in which you are most fearful and insecure. Nevertheless, it is also the planet that teaches the important lessons of life and can become your greatest strength.

Challenges

Every now and then a deep feeling of insecurity in relationships may cause you to avoid important issues in order to avoid creating conflict. Ultimately you'll have to learn how to handle responsibility in relationships, without giving up too much of your own individuality and sense of purpose.

Setbacks and insecurities

You may occasionally be suspicious of other people's motives. At times you'll need to completely withdraw from others in order to realign mind, body and soul but people who don't really understand you may feel that they are being personally rejected. You may find it difficult to make a commitment to anyone, or anything, out of a fear of losing your own individuality. If you can find the courage for some honest self-examination, and get to the root of what is really bothering you, you'll find or rediscover, the courage of your convictions.

Uranus

Represents the expression of your need for freedom and independence and the way you choose to experiment with life. Uranus is the motivation behind your future dreams.

Independence

Changes of fortune in joint finances, insurance, tax or inheritance matters. It would therefore be wise to not become too dependent on other people's money as it could eventually lead to financial ruin or cause resentment. Powerfully charged emotions will be secretive and possibly difficult to control. Some phases in your life may also end suddenly and irreversibly - but lessons will have been learned. Fascinated by metaphysics and the meaning of life and death, an understanding of these subjects will be sought, especially in later years.

2nd house

Possessions and what you own, accumulation of wealth and resources or acquired skills and gifts which give you a sense of value, worth and personal security.

♃ in 2nd House

Individuality

Inventive, original and disruptive. You need to earn your income through work that allows you to express your originality and independence. You'll need to do something different from the norm.

Although you recognise the need for financial and material security, your attitude toward finances and material possessions are that they are necessary but you value your freedom and independence just as highly.

There may be sudden ups and downs in your finances, unexpected losses and just as unexpected gains. This is a result of your need for change and originality, and the willingness to take risks and try things that others would steer clear of. You have the ability to see unexpected opportunities that others would miss completely.

Neptune

Represents your spiritual self, dreams, imagination and creative abilities.

Idealism

Born between 1970-1984 you are part of a generation that will develop a need for higher religious, mystical and spiritual values. Travel will attract you as will the exchange of ideas and religions with other countries.

3rd house

Your relationship to the immediate environment. Experience concerned with communication, learning, intellectual and educational skills. Relationships with immediate relatives, brothers and sisters if you have any.

♃ in 3rd House

Intuition and uncertainty

You're in tune with your environment, picking up the atmosphere around you. You often get the feeling that you know what's going on beneath the surface and you're usually right. At other times, however, what you feel may be the result of your own confused thinking which makes it difficult to always be certain about what you are picking up.

Generational influences

Starting in 1942 and for the next hundred years, everyone born during this time will be affected by the changes taking place in the world's collective psyche. The keynote of this entire period will be the complete transformation of our existing scientific, religious and political belief systems.

Pluto

Represents the secretive side of your nature, your obsessions and shows us how to come to terms with and deal with your deepest insecurities.

♃ in ♎

Forces of change

Plutomas in Libra between 1971-1984. You were born at a time when more peace and arbitration was sought to try to avoid world-wide war.

1st house

The area of life concerned with your sense of self-identity.

♃ in 1st House

Secrets, powerful obsessions

You have a powerful need to in some way change your character at certain times in your life. You'll periodically need to clear your life of things that are limiting your growth, such as a bad relationship or job.

If you don't express these inner feelings yourself, you may unconsciously act in ways that provoke someone else into doing the job for you, so the other person breaks up the relationship, or your boss gives you the sack.

Whatever the case, your life and deeper feelings will undergo occasional changes throughout your life. This will not always be a bad thing, even if it is at times painful, you must remove the old and outworn forms in order to make way for greater personal growth and the possibility of more fulfilling experiences.

MC

The Midheaven

Represents your ambitions and potential for achievement.
