Hello Angelina,

Welcome to your Personality Profile, please check the birth details of your horoscope are correct. This report sets out to give you an assessment of your personality and character development by interpreting the different parts of your birth chart.

Your birth chart represents a map of the solar system for the exact time and place of your birth, it's a blueprint of your personality and represents a set of potentials, with the contents being added through the experiences of life.

Most people are aware of the Sun's zodiac sign that they were born under, however, it's not only the Sun sign that exerts a powerful influence over the birth chart and character. The Rising Sign, the Moon, the planets, the angles they form to each other, called 'aspects', their zodiac sign and house positions also play an important role.

As you read through this analysis, you will occasionally notice that contradictory information may be given. This is to be expected, as each individual's character is extremely complex. For example, at times we can be aggressive and confident, and at other times withdrawn and moody. And if planetary patterns seem to be repeated time and time again, that's because the analysis is focusing on a particular and very important strength or weakness within your character.

The birth chart is comprised of three basic factors.

- 1.** The Planetary Aspects (angles) formed between the Sun, Moon and planets, as seen from the Earth, are represented by the coloured lines in the centre of your chart and the intensity is indicated by the number of stars each aspect is given in the report.
- 2.** Each planet is located in a particular Sign of the Zodiac. The symbols for each Zodiac Sign are placed around the edge of the birth chart, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces.
- 3.** Each planet is also located in a particular House, labelled 1 to 12 in the birth chart.

How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. Your birth chart, is indeed unique, although many people may have, for instance Mars in Scorpio, or Venus in Capricorn, and hence have certain traits in common, the number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more important the connection. The keys for the planets and the other symbols and terms used are given at the back of the report.

Personality Profile Interpretation

Your birth chart shows the exact positions of the planets at your time of birth. It also tells you the sign of the Zodiac that was rising at your time of birth, known as your 'ascendant'. How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. The interpretation begins with your overall character and temperament.

Angelina's character

Angelina's energy level

You have predominantly hands-on attitude towards personal and professional situations and crises. You react swiftly and spontaneously, taking the initiative in order to control events and steer them your way. Indeed, you need to feel in control to be really happy. You have a lot of dynamic sometimes irrepressible energy and a corresponding fund of enthusiasm. Inclined to be hot tempered, you can flare up quickly and easily. However, just as easily, you forgive and forget, for your energy is too fast-flowing and therefore continually regenerative, to become stuck on things which rapidly become overtaken and superseded by time.

Angelina's thoughtfulness

You need to develop and maintain your powers of self-expression and perception. Not that these faculties don't function, but you tend sometimes to let them slide and therefore, your capacity for insight and awareness can become subdued and clouded.

Angelina's temperament

Angelina is fair and even handed

Your powers of initiative, conviction, and perception combine well to help you cope with and understand the ever-changing demands of life's experiences.

AS

The Ascendant or Rising Sign

Represents the area of life concerned with your sense of self-identity, the impression you give and how others see you.

AS in ♈

Self identity

You project yourself with energy, dignity and pride and need to be recognised as someone whose ideas and opinions are worth considering. However, at times, this need to push yourself forward could be overdone, making you appear somewhat forceful, abrupt or pushy.

AS ♃ ☾ ★☆☆☆☆

Sensitive

You're emotionally sensitive to what others say and do. Occasionally you'll tend to give in to pressures or manipulation by others, just to keep the peace. You may also find it difficult to let go past feelings and memories.

You'll therefore need to learn to live in the here and now, and show that you can stand up for your own needs and be caring at the same time.

AS ♁ ♃ ★☆☆☆☆

Open minded

You'll occasionally have to deal with a lack of faith in yourself. This has probably resulted from past experiences where your attempts to be yourself and find your own way in life have been frustrated, perhaps by one or both of your parents.

Challenges will occasionally be put your way but it's precisely through weathering such challenges and conflicts that your faith in your own creative abilities, and faith in life to provide you with what you need, will grow.

You're generally open-minded and generous, perhaps to the point that your generosity is taken advantage of without you even knowing it. On the other hand, you may take advantage of the generosity of others.

Financially, you may also occasionally find it difficult to manage your resources efficiently and the temptation to blow everything on a spending spree may at times be impossible to resist!

AS △ ♃ ★☆☆☆☆

Awareness

You possess a quiet determination to climb the ladder to success. Nevertheless, you're aware that this requires hard work, and you would not want it any other way. You want to be seen as someone who has made it through their own efforts, rather than through luck or a helping hand.

However, occasionally this puts a brake on more exuberant aspects of your personality, not in a negative sense, but in the sense that you're always keeping a quiet eye on how you are expressing yourself and how others are seeing you. Appearances are important to you and you don't want them to think you are going over the top in any way.

AS □ ♃ ★★☆☆☆

Recognition

You have a deep seated need to be in control. You project yourself as a powerful individual who needs to be reckoned with. You will often attempt to take charge, feeling that you are the only person who is able to create order out of the chaos you perceive around you.

However, this attitude, together with a refusal to compromise or back down, can occasionally bring you into conflict with parents or other people in authority. Your personal relationships may also become a battle ground in which you or your partner attempt to dominate and manipulate the other in order to show who is really the boss.

Nevertheless, if you can learn to compromise where necessary, and not push other people past the limits of their tolerance, you're capable of achieving great things. You have the ability to organise other people effectively to help you achieve your goals, and the will-power and determination to succeed at all costs, but you must be prepared to give those who help you recognition for their assistance.

The Sun

Your essential self, the centre of your being. It indicates what you are striving to become as an individual.

☉ in ♈

Vitality

Your basic nature is proud and generous, with a love of dramatic gestures. You have an innate loyalty and warmth and are generous and affectionate to those you love. You have a need to express yourself creatively, and to be recognised for yourself.

You have the strength and determination to achieve your aims.... once you have decided what they are. Your willpower is generally strong, and once you have set your mind on a course of action you can carry it out with great enthusiasm. However, you'll also need to beware of a tendency to become fixed and dogmatic in your opinions, occasionally being rather intolerant of other people's faults and shortcomings. This arises from your intolerance of your own faults and shortcomings. You may refuse to recognise them, or if you do, refuse to live with them. Expecting perfection of yourself leads you to expect perfection in others.

12th house

Surrendering to forces that are beyond your control, a higher power or ideal. Greater self realisation and spiritual goals. Large institutions such as hospitals and prisons, where many people end up if the self-surrender described above is overdone, or made to the wrong ideals.

☉ in 12th House

Self expression

You're aware that your conscious self is only part of your total being, and that below the surface is a more spiritual dimension. You're very sensitive to the atmosphere and feelings that surround you, and this may manifest as some form of psychic ability. You would certainly benefit from some form of meditation that allows you to get in touch with the deeper levels of your mind.

☉ ♃ ♀ ★★★★★

Ideas

You may occasionally lack objectivity in your thinking, identifying too much with your opinions. Although you like to express your thoughts, your words may not always be backed by the facts, but more of an expression of how you would like things to be. Nevertheless, with more objectivity and tolerance of others' opinions you would have a tremendous skill in communicating ideas and concepts to others in a clear and understandable way.

☉ ♎ ♀ ★☆☆☆☆

Attractive

You are physically very attractive. Usually this a blessing, but at times it causes you problems, when you would rather not be noticed, but this seems to be impossible. This may cause you to feel uncomfortable and angry and insecure, and you will find it difficult to articulate your feelings because you are shy and soft-spoken by nature. Be aware that this will be a continuing problem. Learn to use it to your best advantage whenever possible and try to develop strategies so that you, can maintain your privacy and peace of mind.

☉ ♊ ♃ ★★★★★☆

Determined

You're able to work towards your goals with persistence, determination and self-discipline. You have ambition, but you don't feel the need to step on others in order to succeed. Because of this, others will be prepared to help you on your way because they won't feel threatened. You're able to handle responsibility and turn difficult situations into creative opportunities.

Self control

You have a powerful need to be in control. You feel, perhaps as a result of childhood experiences with your parents or some other authority figure, that life is a constant battle to dominate or be dominated. Because of the nature of Pluto you may not even be fully conscious of this tendency, therefore at times you can alienate others without your being aware of the reasons.

Build up of inner turmoil or tension will eventually be released, often explosively; hence you can exhibit perfect self-control in the most difficult circumstances, but hit the roof over something trifling and unimportant.

The Moon

Represents the emotional and compassionate side of your nature and your immediate emotional reaction to life pleasures and problems. It also indicates attitudes instilled in early childhood.

Habits

You're very sensitive to the emotional undercurrents in your environment, and this can make you either sympathetic or vulnerable. You'll probably swing from one to the other at different times.

Your imagination and intuition are strong, but you must avoid the tendency to be discouraged too easily. You may find it difficult to make decisions, and are prone to self-indulgence as a way of dealing with emotional difficulties. At times, your innate idealism and openness can make it difficult for you to deal with the harsher realities of life.

8th house

Relationships or partnerships in which you relate to others on a deeper, more emotional level, sex, beginnings and endings, joint resources and money held in common, and inheritances.

Attitudes, emotions and specific needs

You have a need to share love on a deep emotional level. You'll also probably feel happier in financial or business matters if your resources are held in common with someone else, but there may be changing fortunes in this area, or a business partner may be unstable and moody.

You have an instinctive awareness of the moods and feelings of others, and the atmosphere around you. In some cases this placing can indicate psychic ability. But you'll also have to learn to distinguish between your own emotions and feelings as opposed to those you have absorbed from your surroundings.

Emotional security

There may be some difficulty in personal relationships. You may occasionally tend to depend too much on your partner to provide you with emotional security. You need to get in touch with your own feelings, to find your sense of security within yourself, and then you'll find that instead of looking to others to provide for your needs, emotional satisfaction and security can be found within yourself.

Emotional strength

When necessary, you can be fearless and direct in expressing your emotional needs, perhaps too forceful at times. In your childhood, you learned to be open about your needs, to say what you want and to know how to go about getting it. Fear of rejection doesn't really bother you, as you have an emotional strength that's able to cope with all the knocks that come your way.

You rely strongly on your intuition in an argument. You know your own feelings and are able to express them with a forcefulness that is difficult to oppose. You also instinctively know your opponents' weak points, and are able to hit them where it hurts most when you feel it necessary.

Emotionally trapped

You can occasionally behave in a somewhat erratic and unpredictable way. At times you may even feel that you're fighting a battle to maintain your personal freedom and independence from the emotional demands of loved ones.

Emotional strength

Emotionally you'll generally be able to weather any storm with the knowledge that a crisis is often necessary to shake you out of a rut and that you'll emerge from it with a greater inner strength and understanding.

Mercury

Represents your communication skills and how you think and receive information from others.

Mentality

Your mind is both intuitive and receptive. Your innate psychic receptivity enables you to pick up intuitively on what people are thinking and feeling. However, at times, you may tend to think too much about your own feelings, constantly analysing how and why you feel the way you do.

At best, this can give an unusually deep understanding of your own emotional needs. At worst, your rational judgement can be too strongly influenced by your emotions. Nevertheless, you'll make a good listener, as you're able to sympathise with and understand the problems of others, followed by advice given from the heart.

Communication skills

You may occasionally find that you're influenced by irrational or disturbing thoughts rising up from the depths of your mind, resulting in panic attacks or the feeling that you are not always in control. However, whilst the unconscious is the dumping ground for experiences we would rather forget, and feelings we would rather not admit to, it can also be the source of creative imagination and inspiration.

You'll need to find some way of exploring your unconscious, through meditation or psychotherapy. In this way you can bring to the surface the memories of unpleasant experiences so that they can be examined and dealt with. Clearing away accumulated psychic or emotional rubbish in this way will help you to gain control of your own thought processes, and enable you to make creative use of your psychic sensitivity and powerful imagination.

♀ △ ♃ ★☆☆☆☆

Thoughtfulness

You have a well-developed and open mind. You absorb knowledge quickly, and are always eager to learn as much as you can. You're able to communicate well but at times may be over enthusiastic when expressing your own point of view. Nevertheless, because of your ease at communication, you'll generally fit in well at all levels of society, and your openness and honesty will give others the confidence to entrust you with positions of responsibility.

Your broad philosophical outlook and understanding of other people will be an asset in any career occupation that involves teaching or helping people, since you'll be concerned with helping them to develop what is best in themselves, rather than indoctrinating them with a particular point of view.

♀ △ ♃ ★★☆☆☆

Practical

Your mind is generally practical and organised. As a result, you're able to set yourself realistic goals, which you can then work towards with persistence and determination.

You also have the ability to apply your mind to disciplined study, often bringing your own creative interpretation to whatever subject you are interested in. You don't voice your opinions unless you're sure of your ground, but when you do, you are able to make constructive use of every piece of relevant information that you possess, and to communicate clearly and authoritatively.

♀ □ ♀ ★★☆☆☆

Listen

Your thoughts are often influenced by powerful feelings and emotions, probably resulting from past painful emotional experiences.

However, whilst you undoubtedly also have a powerful intellect, you may not always be able to use it to the full until you have brought to consciousness and come to terms with whatever is undermining your confidence and faith in your own abilities. You may also occasionally be prone to misunderstandings with others, as at times you may not be able to articulate your inner thoughts and feelings.

Nevertheless, you're fiercely resistant of any attempt to influence your way of thinking. You insist on the right to think your own thoughts and reach your own conclusions. This is not always a bad thing, but sometimes it's necessary to realise that we can't be right all the time, and be prepared to listen to others who have had a greater experience and understanding of life than ourselves.

♀

Venus

Represents how you express your emotions within love, marriage and other personal relationships. It also indicates your attitude towards money, possessions and your aesthetic values.

♀ in ♃

Capacity for love

You may occasionally have a tendency to over-analyse your feelings in your relationships, rather than simply experience the person and your feelings for them. You need to understand the why and wherefore behind the relationship. You could therefore become very critical of the other person when your analysis reveals that they're not the perfect, pure being that you want them to be.

2nd house

Possessions and what you own, accumulation of wealth and resources or acquired skills and gifts which give you a sense of value, worth and personal security.

♀ in 2nd House

Love and what you value most

You love the good things in life, and have the ability to attract the things you want. You may occasionally, however, place too much value on material possessions and creature comforts. When in love, you have a need to form stable and lasting relationships, but may become too possessive.

♀ △ ♂ ★★★★★

Sociable

You're a sociable and warm-hearted person. Always ready to give others the benefit of the doubt, you can't hold a grudge for too long. You enjoy being sociable and having a good time with friends, and you're able to mix easily in any social situation. You look for the best in people, and can bring the best out in others.

However, this apparently easy-going nature may tempt some people to take advantage of you, thinking you'll allow them to get away with it. But if others overstep the bounds of your tolerance and understanding you won't be afraid to put them straight in no uncertain terms.

♀ □ ♃ ★★☆☆☆

Unconventional relationship

At times you may experience some difficulty and sudden changes or breaks in your relationships. If people try to get too close too quickly, you'll rapidly back off.

You also probably have little regard for traditional forms of marriage since this would considerably reduce your freedom to do what you want, a freedom you don't easily relinquish. Any form of jealousy and possessiveness particularly horrifies you.

Even if you are involved in a serious relationship, or married, you'll still demand a great deal of freedom and independence for yourself. You may try to suppress these needs for a while out of respect for the other person's feelings or wishes, but if you do so for too long, the tensions will build up until your need for freedom erupts to the surface.

♂

Mars

Represents your sex drive, stamina and how aggressively you assert yourself and express your desires.

♂ in ♁

Driving force

The more aggressive side of your character should generally be well controlled. This doesn't mean that you won't ever lose your temper or do anything on impulse, but you have the capacity to channel your energies into working for long-term goals and ambitions, even if it means a certain amount of self-denial or sacrifice to achieve them.

6th house

Your attitude toward, your working environment. Health and the interaction of your mind and body to maintain the efficient (or inefficient) working of your physical body.

♂ in 6th House

Stamina and assertiveness

In the area of health and work, you possess much enterprise and initiative. However, you'll also not be very tolerant of anyone lording it over you preferring to be your own boss.

When you've set yourself a project you like to get the job done, as soon as possible and you can occasionally be somewhat impatient with less energetic co-workers.

You'll generally release any anger and aggression through plunging into your work and clearing up any jobs that need to be done but you'll also need to avoid the danger of venting your frustrations and anger on co-workers and employees.

♃

Jupiter

Represents expansion, your sense of fun, optimism and generosity. It also gives information concerning your religious and philosophical beliefs.

♃ in ♃

Optimism and understanding

You have high philosophical ideals. You like to help people where you can and help them to achieve their goals and realise their purpose in life. And indeed, it's through this generosity that many opportunities for your own personal and material growth will arise.

♃ in 8th House

Optimism and understanding

You have a good approach to business partnerships, or any endeavour, which requires the sharing of resources, even if this simply means sharing your understanding and insight. At some time in your life, someone else's money may provide you with the opportunity you need to further, or bring to fruition, some important project you are working on.

♃ □ ♃ ★★☆☆☆

Expectation

You could become obsessed with the need to achieve at all costs.

Never satisfied with what you have already gained, you may find yourself constantly seeking to press ahead and do several things at once, tending to brush aside other people's objections or advice to slow down, possibly being convinced that they are trying to hold you back. At times, however, those closest to you may feel neglected and left out, and the resulting domestic problems could bring life to a crashing halt.

However, if you do take care to include others in your plans, and don't try to do everything yourself, then you'll find that you have the support you need to achieve whatever you desire, and still have time to relax and just enjoy life!

♄

Saturn

Represents your sense of responsibility and limitations. It shows how you react to setbacks and the areas in which you are most fearful and insecure. Nevertheless, it is also the planet that teaches the important lessons of life and can become your greatest strength.

♃ in ♈

Challenges

You will be forced to confront your fears and develop your own inner strength in your search for meaning in life, which will be sought either through travel or wholly within yourself. At some point you'll probably experience disillusion with traditional religion, resulting in either scepticism or a search for deeper and more enduring values.

You may also find it difficult to tether yourself to terra firma for too long, wanting to float away on a sea of freedom. Unfortunately, responsibility catches up with most of us at some point in our lives but you'll probably resent it more than most.

4th house

Family and cultural conditioning, your a sense of belonging, deep inner feelings and habit patterns. Experience of your parents, your own home, and conditions surrounding you during the second half of life.

♃ in 4th House

Setbacks and insecurities

Your early home life may have been experienced as restricting and not very supportive. Perhaps your family was struggling materially as you grew up, or the home environment lacked emotional closeness. This may have been carried through to adulthood at times leaving you feeling unloved or inadequate in some way.

But your sense of security must be developed from within you. Once developed from within, no one or nothing can ever take it away. It may take a long time to find, but when found, your sense of security will continue to be solid and enduring.

♃ ♋ ♃ ★★★★★☆

Realising dreams

You are able to give structure to your dreams and aspirations. You can use your imagination constructively for the benefit of yourself and others. You may be instrumental in providing the practical foundation, and the organisation, for turning the dreams of yourself and other people into a reality.

♃ ♋ ♃ ★★☆☆☆

Changes

You have a deep sense of change. You realise that nothing lasts forever. For you, the most enduring possessions are the personal growth and understanding gained from experience, both good and bad. You leave nothing to chance, you plan your goals and objectives carefully, including all the steps and possible pitfalls on the path to their completion. When you set out on a particular path you have the strength of will to reach your goals against all the odds.

♅

Uranus

Represents the expression of your need for freedom and independence and the way you choose to experiment with life. Uranus is the motivation behind your future dreams.

♃ in ♈

Independence

Stimulating search for truth means some time in your life you'll feel a strong need to break free of old beliefs to find new philosophical ideals. If you keep an open mind, you'll learn a great deal. You'll also be able to bring exciting new concepts and ideas into whatever field you're working in, although your restless search for knowledge may cause you to suddenly abandon work before it's completed. Travel in foreign lands and meeting people of other cultures will attract you.

5th house

Your creativity, either expressed through children, or through various art forms. Leisure activities, sports, gambling, love affairs etc. in fact all forms of recreation where you express yourself freely and without inhibition.

♃ in 5th House

Individuality

You need to express your creativity in original or unusual ways. You have a restless need to seek new outlets for your creative talents, to show the world that you're an individual who's determined to enjoy life in your own way.

You'll never be satisfied with what you have created, always feeling that it could be improved on, whilst at the same time eager to move on to something new and different. If these needs are frustrated, there's a danger that you'll try to live out your unexpressed creative urges and sense of adventure through your children. Another way of expressing the influence of Uranus in this house is through love affairs that are subject to sudden beginnings and endings.

♃ ♋ ♃ ★★★★★☆

Forces of change

For your generation there exists an extreme state of tension between individual self-determination and powerful political and collective forces that attempt to dominate and control the individual. Integrating your individuality with collective social responsibility would be a creative way of dealing with this.

♆

Neptune

Represents your spiritual self, dreams, imagination and creative abilities.

♆ in ♋

Idealism

Between 1984-1998 political, financial and environmental changes occur, as this generation will be forced to incorporate idealism with practical reality. This is therefore a time when many of the world's problems could start to be solved and dreams turned into concrete, solid form.

♃ in 5th House

Self sacrifice and uncertainty

You have a strong creative imagination and the ability to turn artistic expression into concrete reality. However, there may be some form of sacrifice or confusion that is experienced, perhaps sacrifice all for art's sake, or you may be forced to give up your creative and artistic aspirations to deal with more practical duties.

You're intensely idealistic in your romantic pursuits, willing to sacrifice all for love or being content to idealise and worship from afar. With children, also, there may be an element of sacrifice, perhaps you'll feel that you have to give up your own aspirations for the sake of your children. If this is the case there is a danger of attempting to live out your own ideals through them, rather than let them find themselves and learn by their own mistakes.

♃ ✖ ♀ ★★☆☆☆

Generational influences

Starting in 1942 and for the next hundred years, everyone born during this time will be affected by the changes taking place in the world's collective psyche. The keynote of this entire period will be the complete transformation of our existing scientific, religious and political belief systems.

♃

Pluto

Represents the secretive side of your nature, your obsessions and shows us how to come to terms with and deal with your deepest insecurities.

♃ in ♏

Forces of change

Pluto was in Scorpio between 1984-1995. You were born at a time when world-wide conflict, wars, famine and plague could reach a peak before the birth of the new age of Aquarius. This period has indeed seen the spread of AIDS, a sexual disease, throughout the world, hunger, famine and numerous national and international conflicts.

♃ in 4th House

Secrets, powerful obsessions

You harbour deep feelings that you may occasionally try to keep buried within you. At times you may even present a rather indifferent and cool attitude, afraid to reveal your true feelings in case they release an overwhelming storm of emotion, especially in the home.

It's probable that these inner conflicts are the result of early emotional experience or parental conflicts that you have not fully come to terms with. Your home life may have gone through an upheaval at a time when you were emotionally vulnerable, or you may have experienced one of your parents as a powerful and dominating personality. On the other hand, your early home life may have been experienced as being over-protective, perhaps to the extent that you felt your own individuality was being overwhelmed and suppressed.

Whatever the case, your life and deeper feelings will undergo occasional changes throughout your life. This will not always be a bad thing, even if it is at times painful, you must remove the old and outworn forms in order to make way for greater personal growth and the possibility of more fulfilling experiences.
